

## McKinney-Vento Homeless Assistance Act

Pursuant to Title V of the McKinney-Vento Homeless Assistance Act, 42 USC 11411, Federal landholding agencies report underutilized, unutilized, excess and surplus Federal real property to the Department of Housing and Urban Development (HUD) for determinations of suitability for homeless assistance use. HUD publishes the suitability determinations in the Federal Register.

Properties reported excess to GSA for which there is no continuing Federal need are subsequently declared surplus and if found suitable for homeless assistance use by HUD, posted to GSA's website at [disposal.gsa.gov](https://disposal.gsa.gov). Each notice includes information regarding the property and the point of contact at GSA.

If a homeless assistance provider is interested in acquiring property, application is made to the Department of Health and Human Services (HHS), whose contact information is provided on the notices as well. If an application is approved by HHS and recommendation made to convey the property for such use, HHS conveys the property to the homeless assistance provider. Eligible applicants for the properties include state and local governments as well as nonprofit tax-exempt 501(c)(3) organizations.
